Forest School Art

It's so important at the moment to get outside and have some fresh air. Why not have a go at creating some natural art from bits in your garden or anything you see when you're out on a walk. Here are a few ideas of what you can make.

These are some bits I found in my garden ☺
Sticks, leaves, flowers, petals, blossom, herbs and stones.

If you don't want to create a picture why not fill up a bowl, cup or plate with as many things as you can find. Sort them into groups, divide them into colours, or add water and make them into a potion! If you've got herbs and flowers you could make your own perfume!

	Use sticks to write your initials or your whole name (if you can find enough sticks!) Why not try and write a message to someone?
 	Make a picture using sticks. What shapes can you make? Can you use different sized sticks to create different shapes? If you don't have any paper, make your pictures on the ground.
	If you have any leaves or flowers you can lay them over your sticks to create a colourful, sensory picture.
	Using leaves, flowers or petals have a go at making a tree picture or a giant flower!
	Have a go at creating your own rainbow picture and send a photo of it to your friends and family.

***Please take lots of photos of your art creations and send them to your teachers through Class Dojo so we can all see what you've made. You could also create a picture for a friend or family member and send a photo to them.**
